6. SEGMENTAL REPORTING

The group operates its business from seven main distribution centres situated throughout South Africa. The distribution centres individually supply goods and services of a similar nature to the group's voluntary trading members. The directors are of the opinion that the operations of the individual distribution centres are substantially similar to one another and that the risks and returns of these distribution centres are likewise similar. As a consequence thereof, the business of the group is considered to be a single geographic segment. TOPS at SPAR and Build it, although constituting distinct businesses at retail, do not satisfy the thresholds of significance for disclosure as separate reportable segments of the group.

7. POST BALANCE SHEET EVENTS

No material events have occurred subsequent to 30 September 2010 which may have an impact on the group's reported financial position at this date.

Review of trading results

FINANCIAL OVERVIEW

In a year of slow economic recovery, low inflation and an extremely competitive retail environment, the group has produced a satisfactory financial performance. Comparable headline earnings per share of 543.7 cents, which is exclusive of the Broad Based Black Economic Empowerment transaction cost, increased by 12.1%. The annual dividend declaration increased 12.4% as the dividend policy remained unchanged. Cash generation was strong, impacted by a lower level of capital expenditure this year of R206 million and the buy back of company shares amounting to R188 million.

Food inflation was negligible at 1% for most of the year, influenced mainly by deflation on basic commodities. Consumer spending remained under pressure despite reduced interest rates while the increased level of unemployment also impacted on our retail performance, particularly in the rural markets.

The group's continued focus on competitive retail pricing and retailer profitability resulted in the gross margin declining slightly to 7.9% (2009: 8.0%). Warehouse expense ratios were negatively affected by a 6.3% increase in volumes handled by our distribution centres in a low food inflation environment. Increased municipal charges and an increased fuel price adversely affected the second half of the year. Positive highlights were the low increase in administration expenses together with an improved level of irrecoverable debts. Overall, group operating costs at 6.7% up on last year were well controlled.

In order to secure key sites, the group purchased five retail stores during the year. These will be managed by a newly established retail division.

Net interest earned of R3.7 million was lower than that earned in 2009 (R5.4 million) and reflected the effects of the continued capital expenditure programme, the share buybacks and of lower interest rates. The group has continued to advance or secure loan facilities for retailers in order to enable them to purchase or revamp stores. The group discounts these retailer loans with its bankers.

The group has no long term borrowings and, when necessary, funds its operations from overdraft facilities. These facilities are in excess of forecast requirements and are subject to annual review.

Dividend cover was maintained at 1.5, and a final dividend of 222 cents per share was declared. Dividends for the year amounted to 362 cents (2009: 322 cents) per share.

PROSPECTS

The group expects 2011 to be another challenging year but are nevertheless positive about the opportunities for our business. We anticipate that consumer spending will remain under some pressure, however the impact of lower interest rates, improving economic activity and a gradual increase in food inflation are positive signs for an improvement in trading. The group will again focus on aggressively driving new business opportunities, organic growth, stringent cost control and securing operating efficiencies.

Cash generation is expected to improve as capital expenditure continues to reduce and the dividend cover is maintained. Where appropriate, surplus cash will be utilised to buy back shares.
