6. SEGMENTAL REPORTING

The group operates its business from distribution centres situated throughout South Africa. The distribution centres individually supply goods and services of a similar nature to the group's voluntary trading members. The directors are of the opinion that the operations of the individual distribution centres are substantially similar to one another and that the risks and returns of these distribution centres are likewise similar. As a consequence thereof, the business of the group is considered to be a single segment.

7. EVENTS AFTER THE REPORTING DATE

No material events have occurred subsequent to 30 September 2012 which may have an impact on the group's reported financial position at this date.

Review of trading results

Trading for the year under review was impacted by an unsettled political and labour scenario, consumer spending still under some pressure and a highly competitive food retail environment. The group has, nevertheless, produced a solid set of financial results for the year.

Turnover increased 12.2% to R43.2 billion which again included strong performances from our liquor business and the building materials division. Internally measured food inflation across the group averaged 6.1% for the year, while cases despatched by our distribution centres increased by 6.4% reflecting the continued healthy, real growth of our business.

SPAR retailers again performed well with retail turnover of R53.7 billion up 11.5%, which drove wholesale turnover up by 11.0% to R35.5 billion. Turnover of existing stores grew by 10.6%, which is well above the reported market performance and was supported by the upgrade of 147 stores during the year. Group house brands continued to perform well and now account for R6.2 billion of wholesale turnover to retail stores. Retail trading space increased by 3.2% as we opened 23 new stores. At the end of the year the group serviced 868 SPAR stores.

TOPS had another great year with retail turnover increasing by 21.2% to R5.0 billion and supporting wholesale liquor turnover growth of 18.3%. We opened 47 new stores and now have 538 stores operating under the TOPS banner. The brand continued to "shake things up" in the market and again won numerous 'best liquor store' awards.

Build it had an excellent trading year and retail turnover of R7.5 billion was up 17% on last year. Wholesale turnover of R4.6 billion rose by 18.5%. The organic growth of existing stores was 15% which, when viewed against the performance of the building industry, was outstanding. During the year, 20 new stores were opened, taking total store numbers to 281.

The Build it house brand imports initiative showed further positive signs and turnover increased by an encouraging 53% to R154 million. House brand product is distributed to Build it retailers and we remain confident that this initiative remains a growth opportunity for the group.

Profit before tax for the year was up 8.1%, despite the challenging trading environment. The group's gross margin declined slightly to 8.0% (2011: 8.1%). We did not experience the same inflation related margin opportunities as last year and, in addition, the strong Build it and TOPS performances influenced the margin mix as these divisions operate at lower gross margins. We will continue to focus on our retailer's ongoing profitability which remains crucial to the group's future success.

Operating expenses increased 12.1% and were affected by a relatively high increase in Build It costs, impacted by abnormal bad debt losses, and the growth of the imports facility. The retail division also reported high cost increases, largely due to the timing of store acquisitions. The core SPAR business costs rose by 10.9% and were negatively impacted by fuel costs increasing by 32%, and the once-off strike costs at the KwaZulu-Natal facility of R12 million.

During the year under review, the corporate retail division reported turnover of R780 million and an operating loss of R28.8 million, although this is offset by the wholesale profit made on sales to this division. The group acquired 1 additional retail store during the year and now owns 11 stores. Management in this division are now well established and are committed to a much improved result in 2013.

Headline earnings rose 11% to R1 060.0 million (2011: R955.1 million) and headline earnings per share increased by 10.6% to 616.3 cents (2011: 557.1 cents). A final dividend of 275 cents (2011: 235 cents) per share was declared and was adjusted to recognise the effect of the change in STC legislation. Dividends for the year amounted to 430 cents (2011: 377 cents) per share representing a 14.1% increase over last year.

Capital expenditure for the current year of R166.8 million was spent predominantly on our fleet, materials handling equipment and the replacement of distribution centre systems hardware infrastructure. The board recently approved an extension to the KwaZulu-Natal distribution centre at a budgeted cost of R65 million to handle the growth in volumes. This project will be completed by August 2013. The group has also embarked on a phased programme to upgrade distribution centre systems infrastructure, commencing in 2013 with the modernisation of group financial systems. We anticipate that group capital expenditure for the next year will be R290 million.

Cash generation remained strong and was positively impacted by lower levels of capital expenditure and improved working capital management during the year. The group has no long-term borrowings and, when necessary, funds its operations from confirmed overdraft facilities. These facilities are adequate for forecast requirements and are subject to annual review.

PROSPECTS

The group expects trading conditions to continue to be subdued with low economic growth forecast and consumer spending remaining under pressure. The consumer is likely to be further affected by rising food prices forecast in the 2013 financial year.

The group, however, remains optimistic that, by realising growth opportunities, improving our operating efficiencies and tightly controlling costs, we will produce a satisfactory level of earnings in 2013.

Wayne Hook — *Chief Executive*
