PERFORMANCE OVERVIEW

The SPAR Group reported a pleasing performance for the year under review, with turnover increasing by 5.9% to R101.0 billion, despite continued challenging trading conditions. The result has again been positively impacted by improved contributions from the European businesses and the group increased operating profit by 7.9% to R2.8 billion. Profit before taxation of R2.5 billion was adversely impacted by fair value adjustments to, and foreign exchange losses on financial liabilities, together with increased interest expenditure resulting from cash outflows for acquisitions.

• SPAR Southern Africa contributed growth in wholesale turnover of 6.7%. This includes turnover reported by the pharmaceutical business, S Buys, acquired during the year. Excluding S Buys, SPAR Southern Africa produced wholesale turnover growth of 5.3% and stable gross margins in a tough market environment. The TOPS liquor brand delivered an impressive result with wholesale sales growth of 13.0%. Despite a generally weaker building materials sector, Build it increased sales by 7.5% enabled by strategic marketing efforts and grew market share. The SPAR Southern Africa store network increased by 2,236 stores, with 145 new stores opened. The group completed 2,760 store upgrades as our retailers remained focussed on organic growth.

• The BWG Group (SPAR Ireland) has continued to deliver strong euro-denominated results. The BWG Foodservice business reported impressive double-digit turnover growth, while all the retail brands enjoyed positive sales growth. The Kilbarney distribution centre saw warehouse turnover increase by 6.9% as more product was directed through the facility. During May 2018, BWG completed the acquisition of 4 Aces Wholesale Limited which operates three cash-and-carry businesses in central Ireland. This business has been successfully integrated into the BWG Group’s wholesale operations. SPAR Ireland’s store network increased by a net 41 stores to finish the year at 1,371 stores.

• SPAR Switzerland has made significant progress in addressing the overall business performance, despite the difficult Swiss retail environment. While the reported turnover growth has remained negative, this was largely due to the strategic closure and sale of corporate retail stores over the last two years. However, this has marked a positive impact on the profitability of the overall business. The cost of sales reduction continued to record improvements in profitability. SPAR Switzerland’s store network grew by the addition of 46 new stores to a total of 315 stores.

PROSPECTS

Against the backdrop of subdued consumer and business confidence in Southern Africa, the trading environment is expected to remain largely unchanged in the medium term. While food price inflation has recently dropped to extremely low levels, there are discernible signs that the cycle will start to turn. Recent record movements in fuel prices and continued foreign currency weakness also indicate that consumers will remain under pressure, with a constrained spending outlook. In response, SPAR’s extensive distribution capability and market-leading house brands are well positioned to deliver exceptional value to consumers and to also ensure that its independent retailers remain suitably positioned to meet these economic challenges.

The Irish business outlook, still influenced by Brexit uncertainties, remains positively cautious in both territories where they operate. Management’s proactive response to market changes should ensure that SPAR Ireland will deliver a result in line with expectations. The acquisition of the Combi Food Products wholesale business, subsequent to the reporting date, will further strengthen the Irish group’s growth objectives.

The Swiss business will maintain its focus on driving the identified strategic initiatives to improve the turnover performance. The group continues to recognise that these objectives will take time to realise, but positive changes are being recorded.

The group remains well positioned to continue to create value for shareholders through its growing, diversified business and well-established retail brands.
